### CALIFORNIA ENERGY COMMISSION Administered ARRA-Funded Programs (\$314.5 million)

#### State Energy Program (SEP) – \$226 million

- **SEP Energy Efficiency Program: \$110 million**  
**Program:** *Energy Efficiency Program.* Aimed at promoting economic vitality and building a clean energy workforce, this program focuses on energy efficiency measures for residential and commercial building retrofits and installing on-site photovoltaic systems. Funds are awarded in three areas: Residential Building Retrofit, Municipal and Commercial Building Retrofit and the Municipal Financing Program.
- **SEP Clean Energy Business Financing Program: \$30.6 million**  
**Program:** *Clean Energy Business Financing Program.* Focus is on industry job-creation and retention by providing low interest loans to private companies that will retool, improve, modify or expand renewable product manufacturing facilities.
- **Department of General Services (DGS): \$25 million**  
**Program:** *Energy Efficient State Property Revolving Loan Program.* The revolving loan program allows state agencies to install energy efficient projects on state-owned property and repays loans from the energy savings.
- **SEP/Energy Conservation Assistance Account (ECAA): \$25 million**  
**Program:** *1% Energy Efficiency Loans.* Local jurisdictions were encouraged to combine block grants or SEP funding with a low interest loan to invest in energy efficiency, save money, reduce green house gas emissions and build new jobs and industries for their communities.
- **Employment Development Department (EDD) and Employment Training Panel (ETP): \$20 million**  
**Program:** *SEP Clean Energy Workforce Training Program.* The nation's largest state-sponsored clean energy workforce training program is focused on providing training for employment in the energy and water efficiency, renewable energy, smart-grid and clean transportation fields.
- **Contracts and Program Support: \$15.4 million**  
Audit, measurement and evaluation contracts for ARRA-funded programs and projects; and administration and program support. Notice of Proposed Awards in February 2010. Monitoring, Verification and Evaluation contract approved March 24, 2010.

#### Energy Efficiency and Conservation Block Grant Program – \$49.6 million

- **Energy Efficiency and Conservation Block Grants (EECBG): \$46 million**  
**Program:** Energy Efficiency and Conservation Block Grants. A minimum of 60 percent of these funds will go to California's eligible small cities and counties on a per capita basis for local governments to invest in cost-effective energy efficient products and/or projects for their communities.
- **Contracts and Program Support: \$3.6 million**  
Audit, measurement and evaluation contracts for ARRA-funded programs and projects; and administration and program support.

#### State Energy Efficient Appliance Rebate Program (CA Cash for Appliances) – \$35.2 million

- **Appliance Rebates: \$33.7 million**  
**Program:** *Energy Efficient Appliance Rebate Program.* California consumers will be able to use an ARRA rebate when purchasing Energy Star clothes washers (\$100), refrigerators (\$200) and room air conditioners (up to \$50). This incentive can also be combined with any utility and manufacturer rebate.
- **Contracts: Up to \$1.5 million**  
Private rebate processing center contracted to valid and process consumer rebate forms. Request for Proposal released January 2010, and contract complete April 2010. California State Controller's Office to issue rebates.

#### Security-Related Energy Assurance Planning – \$3.6 million
