What does it take to actually grow an industry cluster?

Challenges in Growing an Advanced Transportation Industry Cluster

- Industrial Space
- Access to Capital
- Management staff
- Cost and Regulations

Opportunities at the State Level

Investments in cleantech consumption

- “Power of the purse”
- Infrastructure installations
- Pilot projects for EVs – multifamily housing, workplace
- Public-private partnerships

Investments in cleantech production

- Local manufacturing
- Research and development/Incubation
- Organizations
- Revitalization of industrial space
- Incentives
- iHubs

Consider: What does it mean to do business here?

Marketing – EVS27, Trade Shows

Mission of the LAEDC e-Mobility Task Force-

To promote and further develop Southern California as the leader in alternative transportation including maximizing Plug-in Electric Vehicle adoption rates, fleet conversion, ride sharing and a range of e-mobility solutions that will enhance a robust manufacturing cluster and infrastructure deployment resulting in job growth and investment through appropriate levels of public and private funding, technology transfer, workforce development and policy initiatives.
