November 4, 2022

Today we learned that the FBI has received credible information of a broad threat to synagogues in New Jersey. Fortunately these threats have not extended to California. It is important for communities to stay vigilant in this divisive period. We remind everyone, of all faiths, to take all security precautions to protect your community and facilities. As more information becomes available we will keep you informed. Stay alert. In case of emergency call police.

Our long-term hope is for people of all faiths to come together in respect and compassion. However, this committee recognizes that the increase in hate related crime across the United States and California must be taken seriously, therefore we will be working on creating a dialogue to attempt to combat these hate fueled crimes.

Sincerely,
