INTRODUCTION

2018 Budget Act

Summary

This Final Action Report from the Senate Committee on Budget and Fiscal Review provides a summary of the 2018 Budget Act, including related statutory changes, and reflects actions taken by the Senate Committee on Budget and Fiscal Review, the Conference Committee on the Budget, and final negotiations between the leadership of the Legislature and the Administration. The budget authorizes General Fund expenditures of \$138.7 billion and assumes \$141.8 billion in total General Fund resources. Under the budget act, there are combined total reserves in the Budget Stabilization Account (BSA), the Special Fund for Economic Uncertainties (SFEU), and the newly created Safety Net Reserve of approximately \$15.9 billion. This reserve total includes approximately \$13.8 billion in the BSA, which is the constitutional maximum level of 10 percent of General Fund revenues.

On June 8, 2018, the Conference Committee on the Budget completed its work to reconcile the Senate and Assembly versions of the 2018-19 budget. The Conference Committee on the Budget built upon the extensive framework of both the Senate Committee on Budget and Fiscal Review and the Assembly Committee on Budget in establishing the Legislature's version of the budget. Working from the general framework of the Governor's budget and May Revision, the Legislature incorporated significant and important budgetary and policy changes to the state expenditure plan. On June 14, 2018, the Legislature passed the 2018 Budget Act, thus meeting its constitutional obligation to pass a timely balanced budget. The Legislature also approved numerous budget trailer bills and budget act amendments later in June and in August. Budget trailer bills are designed to implement certain provisions of the 2018 Budget Act as noted elsewhere in this report. The 2018 Budget Act was signed by the Governor, without veto, on June 27, 2018, representing the state's eighth consecutive on-time budget. Concurrent with the signing of the budget bill, the Governor signed several related budget trailer bills. Subsequently, the Governor signed the remainder of the budget and trailer bills that were passed by the Legislature in late June and August.

The budget carefully balances the need for additional public investment in education, human services, environmental protection and other state programs, with the necessity of maintaining the state's fiscal stability through increasing reserves and continued debt reduction. Overall, this budget is structured such that it:

- Continues to fully fund existing programs and commitments.
- Targets new spending to the most beneficial investments.
- Highlights social services, K-12 education and combatting homelessness.

- Builds up reserves, pays down debt, and retains the state’s fiscal strength.

The budget package continues the Legislature’s ongoing commitment to California’s residents by strengthening the state’s investments in public programs and services. The Legislature continues to emphasize rebuilding state programs and services, which have still not recovered from the deep economic downturn. For example, the budget includes a significant ongoing investment to take the first of three steps to increase CalWORKs grants so that they are no less than 50 percent of the Federal Poverty Level. The goal is to ensure that no child lives in deep poverty. The budget also continues to invest in early education and child care, more than fully funds the Local Control Funding Formula and increases discretionary funds for school districts. While making such valuable investments, the budget plan also increases the state’s reserve funds, including the creation of a Safety Net Reserve to ensure that programs relied upon more heavily during economic downturns have additional resources to mitigate against cuts and continue to support those in need.

Budget Framework and Resources

The budget adopts the Administration’s revenue estimates for the General Fund and is balanced through the forecast period. It retains the Administration’s Proposition 2 debt reduction proposal and creates a pathway to use future Proposition 2 infrastructure funds for housing. The budget is structured to relieve General Fund pressure, maximize federal revenues, and use cost-effective means of funding public programs. The General Fund budget summary is as follows:

	<u>2017-18</u>	<u>2018-19</u>

*After prior year adjustments.

The budget includes total General Fund expenditures of \$138.7 billion for 2018-19, an expenditure level which is \$1.1 billion higher than under the May Revision. The final budget also includes shifts and repurposing of program expenditures, with additional emphasis on expenditures among programs to address legislative priorities, as well as increasing spending commitments over a multi-year period. The final budget provides for approximately \$15.9 billion in general reserves, comprising \$2.0 billion in the SFEU, \$200 million in the Safety Net Reserve and \$13.8 billion in the BSA.

The adopted budget includes the Governor's revenue assumptions for 2018-19 of \$137.7 billion (prior to transfers, including to the BSA), representing an increase of about 3.9 percent from the prior year. Revenue growth for the state's major taxes continues to be moderately strong, reflecting continued economic growth. Revenue assumptions for major General Fund tax sources are shown in the table below:

Budget Expenditure Highlights

The budget package represents a comprehensive approach to continuing the restoration of essential services and programs, while maintaining the state's solid fiscal outlook. Specifically, the budget funding plan provides resources for many of the Legislature's priorities—especially in the areas of child care, human services, housing, and education—within the established fiscal framework. The foundation for the plan largely begins with the Governor's base level funding, but incorporates distinctive and important changes in program spending to reflect the Legislature's priorities. Major spending categories are shown on the table on page 4.

¹Based on 2018-19.

The budget incorporates priorities of the Legislature and the Administration and includes funding for the following highlighted initiatives and programs:

Education. The budget includes \$78.4 billion in Proposition 98 funding for K-14 education in 2018-19, which represents an all-time high and a \$31 billion increase (66 percent) since 2011-12. Highlights for K-12 include 1) \$3.7 billion to increase the Local Control Funding Formula (LCFF), fully funding the LCFF and provide an additional COLA, 2) \$1.1 billion in one-time discretionary funds for K-12 schools, and 3) \$300 million in one-time funding to support Low-Performing Students. For Higher Education, the budget includes, among other things, \$105 million, one-time, for the University of California. This funding is for general purpose use, which may be used to avoid tuition increases and increase enrollment. The budget also includes \$105 million, ongoing, for the California State University for the Graduation Initiative to increase graduation rates, and for general purpose use. In addition, the budget establishes the Online Community College, and implements the Community College Student Focused Funding Formula.

Human Services. The budget includes \$360 million in ongoing resources to take the first of three steps to increase CalWORKs grants to no less than 50 percent of the Federal Poverty Level and ensure that no child lives in deep poverty. In addition, the budget includes \$230 million to hold harmless any existing Supplemental Security Income recipients who would lose net benefits once they are allowed to also receive federal Supplemental Nutrition Assistance Program benefits.

Other Issues. The 2018-19 budget also includes the following additional funding or provisions:

- \$1 billion in Proposition 56 revenue for rate increases and loan repayments for Medi-Cal providers.
- \$60 million to implement an All Payers Claims Database to increase transparency regarding the cost of health care services.
- \$1.2 billion in bond funds for the first year of implementation of the Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access for All Act of 2018 (Proposition 68).
- \$195 million General Fund for flood control infrastructure to support operations, maintenance, repair, rehabilitation, and replacement projects.
- \$5 billion in SB 1 Transportation funds, including \$2.2 billion for local cities and counties.
- \$500 million for local emergency homelessness grants.
- An estimated \$300 million per year for three years to fund the Multi-Family Housing Program.

Overall, the budget represents a responsible and balanced approach, both in terms of revenues and expenditures. It focuses on both the Administration's and Legislature's priorities by building reserves to protect against an economic downturn, fighting homelessness and poverty, increasing discretionary funding for school districts, and making additional investments in higher education. All new expenditures are supported by fiscal projections that represent a balanced budget throughout the forecast period (through 2021-22). Once again, the 2018-19 budget constitutes a fiscally responsible approach to continue rebuilding the state's public programs while saving for the future.

K-14 EDUCATION - PROPOSITION 98 OVERALL

The 2018 Budget Act includes adoption of the Governor's May Revision revenue estimates and property taxes (although the Legislative Analyst's property tax growth rates for the secured roll were adopted). The resulting Proposition 98 funding levels for K-12 schools and community colleges (K-14 education) are illustrated below:

Budget Year	Proposition 98 Minimum Guarantee	Change from Estimated Guarantee as of June 2018	Applicable Proposition 98 Test¹	K-12 Overall Per Pupil Expenditures²
2016-17	\$71.6 billion	\$252 million increase	Test 2	\$10,617
2017-18	\$75.6 billion	\$1.1 billion increase	Test 2	\$11,218
2018-19	\$78.4 billion	\$2.8 billion increase	Test 2	\$11,640

The calculation of the Proposition 98 Guarantee for 2017-18 includes paying off the balance of the maintenance factor (\$1.3 billion) as part of the 2017-18 Guarantee level. The maintenance factor balance reflects the difference between the Guarantee levels when the operative test is Test 3 or when the Guarantee is suspended and what the Guarantee would have been if Test 2 were operative. The state makes payments towards this obligation in years when Test 1 or 2 is operative and General Fund revenues are growing. Under the factors used to determine the budget act in 2018, no maintenance factor balance is carried through 2018-19.

Of the \$78.4 billion appropriated in 2018-19, \$67.9 billion (86.6 percent) funds K-12 education; \$8.5 billion (10.9 percent) funds community colleges; and \$1.2 billion (1.5 percent) funds preschool and child care programs that are counted within Proposition 98. Of the remaining funds; \$527 million funds adult education, \$164 million funds the K-12 portion of the Strong Workforce Program and \$85 million funds other programs.

The Governor's estimates of statewide average daily attendance (ADA) were also adopted, reflecting slight ADA growth in 2017-18, but overall continuing a trend of ADA declines, resulting in a 2018-19 estimate of 5,944,010 K-12 pupils.

¹ In general, Test 1 is calculated based on a specified percent of General Fund revenues (currently around 38.2 percent). Test 2 is calculated based on prior year funding, adjusted for changes in per capita personal income and attendance. Test 3 is calculated based on prior year funding, adjusted for changes in General Fund revenues, plus 0.5 percent and attendance.

² Figures do not include settle-up payments.

Proposition 98 Certification. The 2018 budget package also includes a new process for certifying the Proposition 98 Guarantee. Certification of the Guarantee is a process by which the Department of Finance, in consultation with the Department of Education and the Chancellor's Office of the Community Colleges, verifies the factors for the calculation of the Proposition 98 Guarantee and the appropriations and expenditures that count towards the Guarantee level. Certifying the Guarantee results in a finalized Guarantee level for the year, as well as finalizing any settle-up owed as a result of changes in the Guarantee level. Prior to this new process, the Guarantee was last certified for 2008-09. The new process for certifying the Proposition 98 Guarantee for a given year is as follows:

- Each year, as part of the May Revision process, the Department of Finance shall calculate the state's Proposition 98 Guarantee level for the prior fiscal year based on the most recently available underlying data and publish the proposed certification calculation and underlying data.
- The Superintendent of Public Instruction, the Chancellor of the Community Colleges and other stakeholders are provided the opportunity to comment on the proposed certification of the Proposition 98 Guarantee. The Department of Finance is required to provide written responses to the comments on their website and to provide this information in a report to the Legislature.
- The Legislature is provided with the opportunity to review the comments and responses and provide additional feedback to the Department of Finance prior to the final certification of the prior-year Proposition 98 Guarantee. The final certification is followed by a 90 day period during which a legal challenge may be filed. The Department of Finance is required to publish the final

certification of the Proposition 98 Guarantee and the underlying data in a separate schedule of the Governor's budget no later than January 10th of the following year.

- If the Director of Finance determines that, pursuant to the certification process, the state has provided appropriations in excess of the Proposition 98 Guarantee for the prior fiscal year, it is required that the excess, not to exceed one percent of the value of the Proposition 98 Guarantee in the certified year, be credited to a newly created Proposition 98 Cost Allocation Schedule. Any amounts in the Proposition 98 Cost Allocation Schedule may be credited to satisfy an outstanding obligation for K-14 education under the Proposition 98 Guarantee in any prior year.
- To the extent an outstanding obligation remains for K-14 education under the Proposition 98 Guarantee in any prior year, after any adjustments for amounts in the Proposition 98 Cost Allocation Schedule are made, the amounts necessary to satisfy the obligations to K-14 education entities are continuously appropriated. They are allocated by the State Controller pursuant to a schedule determined by the Department of Finance.
- The Legislature may adopt an alternative plan for repayment of any outstanding obligations determined as a result of the certification process through the annual budget process or other statute.
- For the 2009-10 through 2016-17 fiscal years, a truncated version of this process is established to certify the Proposition 98 Guarantee. Related to this process, the 2015-16 Proposition 98 Guarantee is rebenched to account for additional child care wraparound services related to the State Preschool Program that were funded within the Proposition 98 Guarantee beginning in 2015-16. According to the Legislative Analyst's Office, this rebenching increases the Proposition 98 Guarantee levels by a total of approximately \$350 million over the 2016-17, 2017-18, and 2018-19 period.

As of August 2018, the Department has released the proposed certification for the 2009-10 through 2016-17 fiscal years. The total settle-up obligation associated with those five years is calculated at \$687 million, an increase of \$347 million compared to previous estimates. The Administration plans to include a multi-year plan for paying the settle-up obligation in its January 2019 budget proposal.

K-12 EDUCATION – ALL FUND SOURCES

In addition to Proposition 98 (General Fund and property taxes), K-12 education is funded through a variety of other fund sources, including federal funds, state lottery funds, local fund sources, and other funds. According to the Department of Finance, total funding for K-12 education from all sources is approximately \$97.2 billion in 2018-19, \$94 billion in 2017-18, and \$88.3 billion in 2016-17.

K-12 Major Expenditures. The following significant investments in K-12 education were adopted in the 2018 budget:

LOCAL CONTROL FUNDING FORMULA (LCFF)

Appropriation of Funds. The budget provides \$3.7 billion in additional resources from the General Fund for allocation through the LCFF to school districts and charter schools in 2018-19. This transition funding brings the formula to full implementation of school district and charter school LCFF targets, including a cost of living adjustment (COLA) of 3.7 percent. The total amount provided for LCFF is \$61.1 billion in the 2018-19 fiscal year, including base workload adjustments provided to school districts, charter schools, and county offices of education to account for average daily attendance changes and COLAs. The transition funding provided in the 2014 Budget Act fully funded the county office of education LCFF targets, since this time, county offices of education have received base workload and COLA adjustments each year. The budget provides a continuous appropriation for COLAs for the LCFF in future years.

ONE-TIME DISCRETIONARY FUNDING / DEBT REDUCTION

Discretionary Funding. The budget appropriates \$1.1 billion to provide discretionary funds that will also pay down the K-12 education mandates backlog. Funds are provided to local educational agencies (LEAs) on a per ADA basis and may be used for any purpose, although legislative intent language states that funds should be prioritized for deferred maintenance, professional development, beginning teacher induction programs, instructional materials, technology infrastructure, and support of implementation of statewide academic content standards. To the extent a LEA has outstanding claims from the School-Based Medi-Cal Administrative Activities program, a LEA's portion of the funds would first offset the balance of any payments due to the state to cover these claims. In addition, the total funds scored to a LEA as result of this section, to the extent that LEAs have unpaid mandate claims, will also be scored in satisfaction of these claims. The mandate backlog accumulated due to the state's earlier deferrals of the required payments, which reimburse local governments for new programs or higher levels of service that the state requires of them. With the funds provided in the 2018 Budget Act, the remaining backlog is anticipated to be approximately \$1 billion at the end of 2018-19.

Settle-up Payments. The budget provides \$100 million in Proposition 98 one-time settle up funding that counts toward the 2009-10 Proposition 98 minimum guarantee. Of this, up to \$89.1 million is allocated to K-12 LEAs for one-time discretionary funding (included in the prior paragraph) and \$10.9 million is provided to community colleges for the Community Colleges Guided Pathways Program.

MAJOR CHANGES

- **Low-Performing Students Block Grant.** The budget allocates \$300 million in one-time Proposition 98 funding for the Low-Performing Students Block Grant, in order to provide LEAs with additional funding for low-performing students who are not otherwise identified for supplemental grant funding under the LCFF or eligible for special education services. This funding is provided on a per-student basis for students that do not meet specified achievement standards on state English language arts or mathematics assessments. Funds shall be used for evidence-based services that directly support pupil academic achievement, including, but not limited to, professional development activities for certificated staff, instructional materials, or additional student supports. LEAs are required to develop a plan for how the funds will be used

and to report to the Superintendent. The Department of Education must compile the plans and provide a report to the Legislature.

- **Full-Day Kindergarten Facilities Grant Program.** The budget provides \$100 million in one-time General Fund for the Full-Day Kindergarten Facilities Grant Program. The State Allocation Board is charged with allocating grants to school districts that lack the facilities to provide full-day kindergarten. Priority for grants is provided for districts with financial hardship or districts that have a high population of low-income students. Grant recipients must provide a local match, except for those districts that meet financial hardship requirements.
- **K-12 Strong Workforce Program.** The budget provides \$150 million in ongoing Proposition 98 funding to establish the K-12 component of the Strong Workforce Program for purposes of expanding the availability of high-quality, industry-aligned career technical education (CTE). This funding is allocated through the Community College Chancellor's Office to existing regional consortia based on the following factors in each region: 1) the unemployment rate (33 percent) 2) the region's total average daily attendance for students in grades 7 to 12 (33 percent), and 3) the proportion of projected job openings (34 percent). Regional consortia are required to collaborate with regional workforce and educational entities, develop a grant application process and allocate grants to LEAs to implement or expand CTE programs aligned with the consortia's regional plan. Grantees are required to provide a local match and report specified data to the consortia and CDE. In addition, \$14 million in ongoing Proposition 98 funding is provided to support Workforce Pathway Coordinators, K-14 Technical Assistance Providers and the consortia administrative costs. The Workforce Pathway Coordinators and Technical Assistance Providers must also provide technical assistance for grantees of the CTE Incentive Grant program.
- **CTE Incentive Grant Program.** The budget also provides \$150 million in ongoing Proposition 98 funding for the existing CTE Incentive Grant program. The CTE Incentive Grant program is amended to include a 2:1 local match requirement, additional reporting requirements for the CDE, elimination of the CTE Incentive Grant technical assistance coordinators and requires the K-12 Workforce Pathway Coordinators and the K-14 Technical Assistance Providers, established through the Strong Workforce program, to provide technical assistance to grant applicants.
- **Classified School Employee Professional Development Block Grant Program.** The budget provides \$50 million in one-time Proposition 98 funding for the Classified School Employee Professional Development Block Grant Program. Of this total, \$45 million is to support K-12 classified employees and \$5 million is for classified employees at the California Community Colleges. Under this program, LEAs would receive a grant based on the number of classified school employees employed by the LEA in the immediately preceding fiscal year. Funds received pursuant to the program may be expended for specified purposes relating to the professional development of classified school employees, with first priority being professional development for the implementation of school safety plans, if applicable.
- **Classified School Employee Summer Assistance Program.** The budget provides \$50 million in one-time Proposition 98 funding for the Classified School Employee Summer Assistance Program. LEAs may elect to participate in this program, under which an LEA may withhold an amount from an eligible classified employee's monthly paycheck during the 2019-20 school year and deposit the amounts in an account within its general fund, to be known as the Classified School Employee

Summer Assistance Program Fund. The CDE shall apportion funds to participating LEAs to provide a participating classified employee up to \$1 for each \$1 that a participating classified employee has elected to have withheld from his or her monthly paychecks. During the summer recess period, the LEA would be required to pay the participating classified employee from the Classified School Employee Summer Assistance Program Fund the amounts withheld in accordance with the classified employee's choices, plus the amount apportioned by the CDE that is attributable to the amount withheld from that classified employee's paychecks during the school year, as specified.

SCHOOL DISTRICTS IN FISCAL DISTRESS

The budget includes the following changes related to school districts in financial distress:

- For the 2018-19 fiscal year, the Oakland Unified School District is required to develop short and long-term financial plans and update school district facilities plans to be aligned with their plans for fiscal solvency. In 2018-19, Inglewood Unified School District is required to meet the requirements for qualified or positive certification and complete comprehensive operational reviews of the district, as specified.
- For the 2019-20 fiscal year, the Governor's January Budget will include an appropriation for the Oakland Unified School District and Inglewood Unified School District, if the specified requirements for 2018-19 are met. Funds will be allocated to the Oakland Unified School District and Inglewood Unified School District, if specified benchmarks are met each year, in the following amounts:
 - For the 2019-20 fiscal year, up to 75 percent of the school district's projected operating deficit.
 - For the 2020-21 fiscal year, up to 50 percent of the school district's projected operating deficit.
 - For the 2021-22 fiscal year, up to 25 percent of the school district's projected operating deficit.
- The Fiscal Crisis Management Assistance Team (FCMAT), with concurrence of the appropriate county office of education, shall certify to the Legislature and the Department of Finance (DOF) that specified benchmarks have been met prior to allocating the state funding. FCMAT shall report to the Legislature and DOF on the district's progress in meeting the benchmarks included in the prior year Budget Act by March 1st of each year, until March 1, 2021.
- For school districts with emergency apportionment loans as of July 1, 2018 (Oakland Unified, Inglewood Unified, South Monterey County Joint High School, and Vallejo Unified) when selling or leasing surplus property, until the emergency loan is repaid, the budget agreement:
 - Allows proceeds from the sale or lease of the surplus property to be used to reduce, retire, or service outstanding emergency apportionment loan debt, in addition to current law that allows the proceeds to be used for capital improvements, deferred maintenance, and other limited uses.

- Excludes a district that uses the proceeds from the sale or lease of the surplus property to reduce, retire, or service outstanding emergency apportionment loan debt from applying for financial hardship assistance when seeking new construction or modernization funds under the School Facilities program.

For all school districts that are currently in, or may in the future enter, fiscal distress, the budget act:

- Assigns authority to appoint a trustee or state administrator for school districts in fiscal distress to the school district's county superintendent, the State Superintendent of Public Instruction (SPI), and the president of the State Board of Education (SBE). Currently, the SPI has sole authority to appoint a trustee or administrator. Requires that the trustee or administrator be selected from a list vetted by or recommended by FCMAT.
- Requires the appointed administrators to serve under the supervision and direction of the county superintendent, in concurrence with the SPI and the president of the SBE, as specified. Currently, the SPI assumes the authority and rights of the governing board of the school district, and supervises and directs the administrator.
- Automatically qualifies school districts in state receivership for state intervention within the K-12 school accountability system, to allow school districts in receivership to access technical assistance for student performance and district management from the California Collaborative for Educational Excellence (CCEE). If the CCEE provides assistance to the school district, requires the CCEE to conduct a systemic review of the school district and coordinate additional assistance under the statewide system of support.
- Requires FCMAT to do an annual progress review of: (1) the fiscal recovery of school districts in state receivership, and (2) the effectiveness of county office of education oversight. Requires the county office of education to demonstrate how they are going to remediate any deficiencies in oversight. Additionally, requires annual audits of school districts that receive emergency apportionments to be performed by entities on the State Controller-approved list of auditing firms.

STATE-WIDE SYSTEM OF SUPPORT

The budget amends statute to develop and align a statewide system of support for struggling LEAs and to promote continuous improvement of LEAs for all students in the identified state priority areas. Specifically, this budget establishes the following structure for the statewide system of support:

- The budget aligns requirements for county offices of education to support school districts in need of technical assistance to the development, by the State Board of Education, of a tiered support system. This includes a description of the requirements for county offices of education to provide technical assistance, and the ability of a school district to seek assistance from the county office of education and other providers. Similar amendments are made to the process for the Superintendent of Public Instruction (SPI) to assist struggling county offices of education. The budget also provides \$53.8 million to support county offices of education in undertaking these requirements. A formula is established for providing funding for county offices of education to support school districts that are in need of improvement as identified under the California School Dashboard

(dashboard). Under this formula, county offices of education would receive base funding, plus additional funding determined by the number of school districts identified as in need of differentiated assistance by the dashboard. County offices of education are also required to report on their plans for provision of technical assistance to the CDE, which in turn will compile the information and make it available on their website by November 1 of each year, beginning in 2019. Finally, the budget specifies the definition of, and methods of evaluation for, alternative schools within the state's accountability system.

- The budget provides \$4 million and establishes a structure for the selection and support of between six and 10 county offices of education as geographic lead agencies in their region. The responsibilities of the lead county offices of education would include building the capacity of other county offices of education in the region, coordinating and collaborating technical assistance across the region, providing technical assistance to a school district if a county office of education is unable to, and identifying existing and developing new resources upon request of the California CCEE or the SPI. Subject to budget act appropriation, the budget provides for creation of an additional county office of education expert lead agency specifically to provide support on a specified statewide issue. Finally, the budget clarifies how school districts, county offices of education, lead agencies, the CCEE, and the CDE will collaborate within the technical assistance process and how geographic lead agencies will be held accountable for improving student outcomes in their regions.
- The budget provides \$10 million and establishes a structure for the selection and support of between six and 10 Special Education Local Plan Areas (SELPA) to serve as special education resource leads to work with county offices of education to improve outcomes for students with disabilities. It incorporates special education resource leads into the statewide system of support and specifies that at least three selected resource leads shall focus directly on building SELPA capacity to work with county offices of education. The SELPA planning process is aligned with the Local Control and Accountability Plan (LCAP) process for LEAs. The CDE is required to develop: 1) a template for a SELPA annual assurances support plan, and 2) a template for a summary document that supplements the SELPA plan and links SELPA budgeted activities with services and activities identified within the LCAPs of LEAs in the SELPA. SELPA annual assurances support plans are required to be updated to be three-year plans beginning July 1, 2019.
- The budget clarifies the operations of the CCEE and provides \$11.5 million in Proposition 98 General Fund, including ongoing professional development activities, support of lead agencies, and direct technical assistance to LEAs under limited circumstances. In addition, the budget provides the board of the CCEE with authority to determine the acceptance and expenditure of CCEE revenues not appropriated by the Legislature.
- The budget adopts a parent-friendly budget summary that LEAs must provide that links budget expenditures to corresponding goals, actions, and services in the school district's LCAP. The summary for parents will be included as part of the LCAP document. \$200,000 in one-time Proposition 98 funding is provided to contract with the San Joaquin County Office of Education to incorporate the budget summary in the LCAP template.
- The budget provides \$300,000 in one-time Proposition 98 funding for the CDE to contract with the San Joaquin County Office of Education to update the California School Dashboard interface.

- The budget requires CDE to post online the amount of supplemental and concentration grant funding awarded to each LEA on an annual basis once LEAs are funded at their LCFF targets. In addition, the budget includes technical amendments to the school district and county office of education local appropriations limit calculations to conform to the CDE's current practice and funding under the LCFF.
- The budget extends the date by which the SBE may revise the LCAP template under the state's open meeting law rather than through the formal regulatory process, from December 31, 2018 to January 31, 2019.
- The budget, through trailer bill legislation (AB 1808(Committee on Budget), Chapter 32, Statutes of 2018), included Legislative intent to enact legislation in the 2017-18 Regular Session to redesign the LCAP template. Implementing language was then adopted as part of the education clean-up trailer bill. The scope of the changes to the template included streamlining the template to increase accessibility for parents and other local stakeholders and presenting information in a manner that more clearly shows whether services are being targeted to specific school sites or provided on a districtwide, countywide, or charter-wide basis. The trailer bill language includes the following:
 - Requires the SBE to adopt a new template for the LCAP and Annual Update on or before January 31, 2020.
 - Requires the SBE to replace the existing expenditure tables within the "Goals, Actions and Services" section of the LCAP with a new summary table of planned expenditures for all actions for each goal included in the LCAP, broken out by fund source. Also requires the total overall expenditures to be broken out by personnel and non-personnel expenditures.
 - Requires the SBE to include a summary table within the "Demonstration of Increased or Improved Services" section of the LCAP that includes a summary of the actions and planned expenditures to increase or improve services for English learners, low-income and foster youth students. Requires the planned expenditures to be grouped by expenditures provided to students on a districtwide, countywide or charterwide basis, expenditures targeted to one or more student subgroups, and expenditures targeted at specific school sites.
 - Requires the SBE to specify in the LCAP instructions and Annual Update template that LEAs are encouraged to prioritize their goals, actions and related expenditures within the eight state priorities. Specifies that the instructions shall require LEAs to consider performance on the California School Dashboard in determining how to prioritize goals, actions and expenditures within the LCAP and Annual Update. Requires LEAs to continue to report and track progress on the metrics for all state priorities.
 - Requires the SBE to specify in the instructions of the LCAP and Annual Update template that LEAs that have numerically significant English learner students must report progress on metrics and include actions and services for English learners in the LCAP and Annual Update.
 - Requires the LCAP and Annual Update template adopted by the SBE to use language that is understandable and accessible to parents.
 - Requires school districts and county offices of education to post prominently on the homepage of their website their approved LCAP.
 - Consolidates all the LCAP and Annual Update template requirements into a single section in statute.

- Updates relevant sections related to charter schools to clarify that charter schools must also use the updated template adopted by the SBE.
 - Provides a limited exemption for the SBE to make necessary changes to the LCAP and Annual Update template required by the trailer bill without following the Administrative Procedures Act requirements.
 - Updates references to outdated assessments in the metrics for the state priorities included in the LCFF.
- Provides \$200,000 in one-time Proposition 98 funds for the San Joaquin Office of Education to support updating the LCAP Electronic Template system to reflect changes in the trailer bill.

EARLY CHILDHOOD CARE AND EDUCATION PROGRAMS

Overall, the 2018 Budget Act provides \$4.7 billion (\$2.1 billion Proposition 98 General Fund \$1.4 billion General Fund and \$1.2 billion federal funds) for child care, state preschool, and transitional kindergarten programs. The budget reflects the final year of the multi-year investment for child care and early learning agreed to as part of the 2016-17 budget act as well as additional increases negotiated as part of the final 2018 budget package.

- **Transitional Kindergarten.** Transitional kindergarten is considered the first year of a two-year kindergarten program. Children whose fifth birthday falls between September 2nd and December 2nd may be admitted to a transitional kindergarten program (children are admitted to Kindergarten if their fifth birthday falls before September 2nd). Starting in 2015-16, children whose fifth birthday is after December 2nd may be admitted to transitional kindergarten (as developmentally appropriate); however, these students do not generate state funding until they reach their fifth birthday. The budget provides \$865 million for transitional kindergarten in 2018-19, an increase of almost seven percent over the 2017-18 fiscal year.
- **California State Preschool Program.** State preschool provides part-day or full-day care and education for low-income three and four-year-old children. The budget provides \$1.3 billion total

for state preschool, including \$538 million for part-day and \$804 million for full-day preschool. In addition, the budget provides an increase of 2,959 full-day slots to LEAs, effective March 1, 2019, and annualizes slots provided in 2017-18.

- **Child Care.** The budget provides approximately \$1.3 billion for CalWORKs child care, specifically: \$331 million for Stage 1, \$560 million for Stage 2, and \$399 million for Stage 3. In addition, the budget includes \$1 billion for non-CalWORKs child care programs, such as: general child care (\$412 million), the Alternative Payment Program (\$530 million), a bridge program for foster children (\$41), migrant child care (\$41 million), and care for children with severe disabilities (\$2 million). These increases reflect a significant increase in non-CalWORKs child care slots (24 percent over 2017-18).
- **Reimbursement Rates.** The budget provides the following increases to the standard reimbursement rate (used to reimburse providers that contract with the State Department of Education), regional market rate (used to pay providers that accept vouchers), and license-exempt rate:
 - Updates the standard reimbursement rate and state preschool reimbursement rate, commencing July 1, 2018, to reflect a cost-of-living adjustment and other increases.
 - Updates the infant reimbursement rate adjustment factor from 1.7 to 2.44 and the toddler reimbursement rate adjustment factor from 1.4 to 1.8. In addition, the adjustment factor for children with exceptional needs is increased from 1.2 to 1.54; and the adjustment factor for severely disabled children is increased from 1.5 to 1.93. These rate adjustment factors are intended to account for the higher costs of serving children in these categories and are effective as of January 1, 2019.
 - Makes permanent a provision to hold providers receiving the regional market rate (RMR) for voucher-based child care harmless so that no provider receives less under current rates than it received under the RMR ceiling that existed in that region on December 31, 2017 (previously; this hold harmless would have expired as of December 31, 2018).
- **Preschool Quality Rating Improvement System (QRIS).** The budget continues an investment of \$50 million General Fund for the QRIS consortia to support quality improvements for child care providers.
- **Inclusive Early Education Expansion Program.** The budget provides \$167.2 million in Proposition 98 funding for the Inclusive Early Education Expansion program. Under this program; grants will be provided to LEAs to increase access to subsidized early care and education programs for children from ages zero to five. Priority for grants shall be given to applicants that have a need for expanded access to inclusive early care, and to serve low-income communities, leverage local partnerships, serve a broad range of disabilities, and those who plan to, or already do, serve children with disabilities in proportion to the rate of identification similar to LEAs in their area. Funds may be used for one-time infrastructure costs, adaptive equipment, and professional development, and grantees must provide a local match. The California Department of Education (CDE) will administer the program, conduct an evaluation and direct a related stakeholder workgroup.

- **Inclusive Early Care Pilot Program.** The budget establishes the Inclusive Early Care Pilot Program, under which county offices of education may apply for grants to increase access to early care and education programs for children with exceptional needs, including severe disabilities, from ages zero to five. Grantees may use funds for a variety of purposes to build local and regional capacity, including, but not limited to, outreach coordinators, placement navigators, adaptive equipment, professional learning, and assessment and evaluation tools. Priority shall be given to applicants with a demonstrated need for expanded access to inclusive early care and education within their county, particularly within low-income and high-need communities. The CDE shall administer the program and conduct an evaluation. For purposes of this program, \$10 million in one-time federal funding is provided in the 2018-19 budget.
- **Preschool Licensing Flexibility.** The budget requires the CDE to adopt regulations for California State Preschool programs under Title 5, on or before July 1, 2019, related to outdoor shade, drinking water, restrooms, supervision of children, and maintenance of indoor and outdoor space. It also allows the CDE to adopt emergency regulations to meet the requirements of this section and clarifies that the licensing flexibility provisions apply to any LEA-operated classroom that is funded in whole or part under the State Preschool Program. In addition, the Uniform Complaint Procedures section of this bill adds related provisions establishing a process for complaints related to the preschool health and safety requirements added to Title 5 regulations.
- **Other Quality Investments.** The budget includes \$26.4 million in federal Child Care and Development Fund resources for each of the 2018-19 and 2019-20 fiscal years to increase inspections of licensed child care providers from once every three years to annual visits. In addition, \$20 million in federal Child Care and Development Fund carryover funding is provided for the County Pilot for Inclusive Early Care, the Child Care Initiative Project, and licensed child care teacher professional development.
- **Technical Changes.** The budget makes other changes, including specifying that alternative payment programs have between 12 and 24 months to expend funds allocated within a fiscal year.

CDE STATE OPERATIONS ISSUES

Student Focused Funding Formula. Over a three-year period the formula would shift to 60 percent enrollment-based funding, 20 percent funding based on the enrollment of low-income students, and 20 percent funding based on performance outcomes. Enrollment growth will be computed on a three-year average, and districts increasing performance of low-income students would receive additional weights under the new funding formula.
- **Hold-Harmless and Stability Funding.** AB 1809 establishes a one-year delay for districts experiencing a reduction in their apportionment funding if they are declining in enrollment. The committee is comprised of 12 members, with four members to be appointed by the Senate and Assembly each, and four members appointed by the Governor. The committee must review and make recommendations by January 1, 2020 on the inclusion of: (1) first generation college students, (2) the definition of low-income to reflect students in regions with high cost-of-living, and (3) incoming students' levels of academic proficiency in the supplemental allocation of the funding formula. The committee shall also review and make recommendations, by June 30, 2021, on non-credit instruction and instructional service agreements and how districts' allocations could be adjusted if a recession occurs. The committee will sunset on January 1, 2022.

The college must inform potential and enrolled students regarding the implications of taking courses prior to accreditation and how the college will rectify this in the future.

The Chancellor's Office would distribute the funds to the program's seven regional consortia of community colleges based upon each region's projected CNA job openings, number of CNA programs, and enrolled CNA students in 2017-18. The Chancellor's Office estimates that the proposed funding could support about 1,300 enrollment slots.
- **NextUp Program.** The budget approves the Governor's May Revision proposal to increase funding for the NextUp Program by \$5 million Proposition 98 General Fund, which supports current and former foster youth at the community colleges, at up to 20 colleges. This aligns with Senate Bill 20 (Beall), Chapter 772, Statutes of 2017.
- **Innovation Awards.** The budget rejects the Governor's proposed \$20 million in one-time Proposition 98 General Fund for an additional round of innovation awards to community colleges groups.
- **El Camino College Public Training Center.** The budget provides \$10 million in one-time to create the center, which will train local fire, police, emergency management and emergency medical service agencies.
- **Norco College Early Childhood Education Center.** The budget provides \$5 million in one-time Proposition 98 General Fund to build a new center.
- **Tuition for Students with Special Immigrant Visas.** AB 1809 exempts students with special immigrant visas from nonresident tuition at community colleges.
- **College Testing Reporting.** AB 1809 cleans up existing law to allow college testing companies to provide data to an appropriate state agency or post information on company Web sites. Previous statute required the reporting of data to the California Postsecondary Education Commission, which is no longer funded.
- **Other Adjustments and Appropriations.** The budget also provides various augmentations including: \$690,000 in ongoing Proposition 98 General Fund to fund the course identification numbering system, and \$232,000 in ongoing Proposition 98 General Fund increase to support the Academic Senate, and a \$738,000 one-time Proposition 98 General Fund increase for the Puente

Program. The budget also re-appropriates \$8 million Proposition 98 General Fund to support CTE programs in regions with high unemployment, as prescribed in the 2017-18 budget. The budget also reappropriates \$250,000 General Fund from the 2017-18 budget to support the Underground Scholars Program.

Adult Education Program. The budget provides an increase of \$21.6 million in ongoing Proposition 98 General Fund to reflect a cost-of-living adjustment for the 2017-18 and 2018-19 years and \$5 million for data collection and accountability. The budget also includes the following changes to the adult education program:

- Extends the timeline for regional consortia to develop a new three-year plan to 2019-20 (a one-year extension).
- Caps the amount of indirect (administrative) costs that districts may charge their adult schools or community colleges at five percent or less.
- Renames the Adult Education Block Grant as the Adult Education Program.

- Requires that adult education providers document that they are participating in their regional planning consortia as a condition of receiving state or federal funds. In addition, consortia are required to document that these providers are included in the planning process.
- Of the \$5 million provided for data collection, up to \$500,000 will be used to contract with an external entity to survey adult schools on the fees being charged for different categories of courses and the average cost per student of adult education.
- Finally, trailer bill language specifies that adult education providers and the community colleges must assign statewide student identifiers for students without social security numbers.

6980 CALIFORNIA STUDENT AID COMMISSION

- **Cal Grants for Foster Youth.** The budget provides \$5.2 million ongoing General Fund to expand Cal Grant eligibility for former foster youth. The expansion would allow former foster youth up to age 26 to be eligible for the Cal Grant entitlement program and allow these students to receive a Cal Grant for up to eight years.
- **Cal Grants for Students Attending Accredited Private For-Profit Institutions.** The budget decreases the Cal Grant award for students attending accredited private for-profit institutions from \$9,084 to \$8,056.
- **Cal Grants for Students Attending Accredited Non-Profit Institutions.** AB 1809 maintains the maximum Cal Grant award for students attending accredited non-profit colleges and universities at \$9,084 if the nonprofit sector admits at least 2,000 community college students who earned an associate degree for transfer in 2019-20, 3,000 such students in 2020-21, and 3,500 in 2021-22. The required number of transfer students is to increase after that by the percentage growth in transfers to the sector as a whole.
- **Middle Class Scholarship Program.** AB 1809 adjusts the appropriations for the program based on caseload and eligibility. The appropriations for the 2016–17 fiscal year adjust to \$71.3 million, 2017–18 fiscal year to \$99.8 million, and 2018–19 fiscal year to \$101.4 million, and would maintain the existing appropriation for the 2019–20 fiscal year and each fiscal year thereafter at \$117 million.
- **Grant Delivery System.** The budget provides \$7.4 million in one-time General Fund to begin the replacement of the Grant Delivery System, of this funding \$5.5 million is for project vendors, and \$1.9 million is for licensing fees, staffing and overhead costs, and fulfillment of certain Department of Technology project requirements. This is the first-year cost of a two-year project.

0650 OFFICE OF PLANNING AND RESEARCH (OPR)

- **California Education Learning Lab.** The budget approves the Governor's proposal to provide \$10 million ongoing General Fund to support the California Education Learning Lab within OPR. The program would initially focus exclusively on creating new, and redesigning existing, lower-division online and hybrid courses in science, technology, engineering, and math (STEM) at the three segments. CAP-AND-TRADE SPENDING PLAN

State Cap-and-Trade auction revenue is deposited in the GGRF. Certain GGRF allocations are “taken off the top” before determining continuous appropriations. These “off the top” allocations include: backfill revenue loss from an expanded manufacturing sales tax exemption as well as backfill revenue loss from suspension of the state fire prevention fee that was previously imposed on landowners in State Responsibility Areas (SRAs) (the fee was used to fund state fire prevention activities in these areas).

Of the remaining revenue, existing law continuously appropriates 60 percent, as follows: 1) 25 percent for the state’s high-speed rail project; 2) 20 percent for affordable housing and sustainable communities grants; 3) 10 percent for intercity rail capital projects; and, 4) five percent for low carbon transit operations.

The other 40 percent of the remaining revenue is referred to as “discretionary revenue” and is available for allocation through the annual budget act or other legislation.

The plan assumes at least \$2.6 billion in Cap-and-Trade auction revenue in 2018-19, more than \$400 million carried over from the end of 2017-18, and \$50 million in interest income accrued to the fund.

As the chart on the next page shows, the spending plan allocates \$3.1 billion from the GGRF for various programs. This plan includes:

- \$1.5 billion in continuous appropriations;
- \$166 million in other existing spending commitments; and,
- \$1.4 billion in discretionary spending.

A general investment category breakdown for \$1.4 billion in discretionary spending is as follows:

- Low carbon transportation \$467 million;
- Air toxic and criteria air pollutants \$275 million;
- Healthy Forests \$240 million;
- Climate smart agriculture \$185 million;
- Short-lived climate pollutants \$127 million;
- Integrated climate action: Mitigation & resilience \$86 million; and,
- Climate and clean energy research \$20 million.

ENERGY AND UTILITIES

3360 CALIFORNIA ENERGY COMMISSION (CEC)

The CEC continues to focus work on improving the state's energy infrastructure, increase compliance with energy efficiency regulations, and administering programs related to renewable energy resources. The 2018-19 budget provides \$536 million for the CEC from a variety of special funds. This includes:

- **On-Call Delegate Chief Building Official Contract Funding.** The budget includes \$1 million in increased expenditure authority from the Energy Facility License and Compliance Fund (EFLCF) to provide contract funding for an On-Call Delegate Chief Building Official (DCBO). This contract will provide DCBO support for modifications to jurisdictional power plants resulting from project owner filed amendments, emergency responses, such as power plant fires, and other small modifications. The Energy Commission has indicated that they seek to change from the current Memorandum of Understanding (MOU) approach to a contracted approach to eliminate potential conflicts of interest between the selected DCBO firms and the project owners. This approach requires additional contract authority to execute.
- **Title 20 Appliance Energy Efficiency Standards – Compliance Assistance and Enforcement Program Contract Funding.** The budget includes a \$100,000 increase in expenditure authority for baseline contract funding from the Appliance Efficiency Enforcement Subaccount (AEES) to support the Title 20 appliance efficiency enforcement testing contract. This \$100,000 augmentation in additional contract authority will increase the testing capacity at the contracted test laboratory and its contract funding from \$200,000 per fiscal year to \$300,000 per fiscal year.
- **Implementation of the School Bus Retrofit and Replacement Program (SB 110).** The budget includes authority for three-year funding of \$900,000 annually for six temporary positions from the Alternative and Renewable Fuel and Vehicle Technology Fund to develop and implement the new school bus retrofit and replacement activities under the Clean Energy Job Creation Program.
- **Building Energy Efficiency Compliance Software Updates and Maintenance Funding.** The budget includes a \$1.5 million increase in baseline contract authority from the Cost of Implementation Account for the continual enhancement, maintenance, and support of the Energy Commission's residential and nonresidential Building Energy Efficiency Standards (Standards) compliance software (CBECC).
- **Implementation of Electric Program Investment Charge.** The budget includes a baseline increase of \$12 million in Electric Program Investment Charge (EPIC) program and administration funds. This includes the conversion of existing technical support funds to fund four permanent positions to manage the increased program funding.
- **Energy Resources Program Account Structural Deficit Relief.** The budget includes a series of actions to reduce the Energy Resources Programs Account (ERPA) structural deficit. These include: shifting eligible expenditures from ERPA to the Cost of Implementation Account (CCIA) and Energy Facility License and Compliance Fund (EFLCF) (total ERPA reduction of \$7.35

million), and a one-time shift of the Department of General Services' (DGS) ERPA funding to the Environmental License Plate Fund (reduction of \$1.99 million). DGS will evaluate appropriate mechanisms to bill these expenditures beginning in 2019-20. The budget also includes a shift of \$2.1 million of eligible expenditures from the Renewable Resource Trust Fund (RRTF) to CCIA.

- **Disadvantaged Community Advisory Group.** The budget includes trailer bill language to provide reimbursement for reasonable expenses and per diem for members of the Disadvantaged Community Advisory Group authorized under the Clean Energy and Pollution Reduction Act of 2015, SB 350 (de León), Chapter 547, Statutes of 2015. The costs would be split between the California Public Utilities Commission (PUC) and CEC, and the total annual expenses for these activities could not exceed \$100,000.
- **Alternative Fuel Infrastructure.** The budget includes \$134.5 million from the Alternative and Renewable Fuel and Vehicle Technology Fund to accelerate investments in the statewide network of ZEV infrastructure. This is a 300 percent increase in state infrastructure investments for the budget year, with a goal of providing a multi-year investment of \$800 million for ZEV infrastructure through 2025.

8660 CALIFORNIA PUBLIC UTILITIES COMMISSION (PUC)

The budget includes a series of actions designed to implement recent legislation, improve staffing and accountability, and expand the PUC's safety capabilities statewide. The 2018-19 budget provides \$126 billion for the PUC from a variety of special funds. This includes funding for:

- **Communications Licensing and Compliance Program.** The budget includes \$295,000, PUC Utilities Reimbursement Account, ongoing, for two permanent positions for the Licensing and Compliance Program (L&C) to address expanded work obligations that have resulted in work backlog issues.
- **Supporting Statewide Presence.** The budget includes \$1 million in 2018-19, with additional ongoing costs, from various funds, to lease two additional office spaces in Sacramento County for the placement of new PUC staff and the relocation of existing employees. The budget requested \$1.1 million in January, which was subsequently modified by an April Finance Letter that reduced the request by \$52,000 in 2018-19 and \$124,000 ongoing. The savings come from the expiration of an existing PUC office lease.
- **Water and Utility Program Audit Compliance.** The budget includes \$929,000 per year from the Public Utility Commission Utilities Reimbursement Account to convert seven limited term positions to permanent positions. These positions were originally provided on a limited-term basis to address gaps in PUC's oversight of utilities through a State Auditor report. The workload to ensure the PUC continues to address the audit findings is likely permanent. As such, it is appropriate to extend these positions.
- **Water Affordability for Low-Income Communities.** The budget includes \$294,000 from the Public Utilities Commission Utilities Reimbursement Account for two two-year limited-term

positions to analyze and identify potential solutions to the growing water affordability issue in rate-setting proceedings as part of the PUC's recently-opened rulemaking R. 17-06-024.

- **Gas and Electric Service Disconnections.** The budget includes \$336,000 (Public Utilities Commission Utilities Reimbursement Account) per year for two permanent positions to implement the requirements of SB 598 (Hueso), Chapter 362, Statutes of 2017. These positions will support the development and administration of decisions and a rulemaking proceeding on disconnections, as well as ongoing work to incorporate potential impact on disconnections into all future General Rate Case (GRC) proceedings. These are new tasks for the PUC that cannot be absorbed by existing staff, and will continue into the foreseeable future.
- **Residential Solar Energy Storage System Consumer Protection (AB 1070).** The budget includes \$592,000 (Public Utilities Commission Utilities Reimbursement Account) for one two-year limited-term position to implement the requirements of AB 1070 (Gonzalez Fletcher), Chapter 662, Statutes of 2017. This includes \$450,000 in contractor funding. AB 1070 directs the PUC to develop and adjust, on an ongoing basis, a methodology that estimates electric utility bill savings for residential customers who install solar energy systems, and to create a uniform disclosure document the solar industry is required to present to residential customers before the purchase or lease of a solar energy system. Developing this new methodology and disclosure requirement is new, limited-term workload that the PUC cannot absorb with current resources.
- **Safety and Enforcement Division: Fortify Gas Safety Reliability, Rail Crossings and Engineering, and Rail Operations Branches.** The budget includes \$2.2 million from the State Highway Account (SHA) and the Public Utilities Commission Utilities Reimbursement Account for additional operational support and field staff in the Safety and Enforcement Division (SED). Specifically, the budget includes 12 new permanent full-time positions, classification upgrade of five existing permanent full-time positions, and equipment, training, and travel necessary to facilitate inspections and audits, and to ensure staff safety.
- **California Advanced Services Fund – Internet for All Now Act (AB 1665).** The budget includes \$76.6 million from the California Advanced Services Fund (CASF) for the following:
 - Permanent funding for two Senior Telecommunications Engineers to address staffing shortfalls in the program.
 - The conversion of five limited-term positions set to expire on December 31, 2020, to permanent positions.
 - The addition of five new, permanent positions; one new permanent half-time position; and two new limited-term positions to implement AB 1656 (Eduardo Garcia), Chapter 851, Statutes of 2017.
 - Funding of \$2.5 million per year for consultant services for the statutorily required California Environmental Quality Act (CEQA) review of projects in the program.
 - Ongoing funding of \$72.6 million for local assistance for the CASF program—an additional seven years beyond the last approval, or until 2029.
 - Budget bill language authorizing a three-year encumbrance period and two-year liquidation period for local assistance funding prospectively and extension of liquidation for current appropriations.

- **California Advanced Services Fund.** The budget includes language to extend the liquidation period of appropriations made in 2015, 2016, and 2017, for this program to ensure uninterrupted operations.
- **Building Administrative Infrastructure Core.** The budget includes \$2.6 million from various funds for 23 permanent full-time positions, training, and travel to strengthen the administrative core of the department, which supports Safety, Contract and Procurement Services, Human Resources (including hiring and training), and Business Services in the areas of Facilities, Records Management, Forms Management, Fleet Management, and Facilities.
- **Electric Vehicle Charging Infrastructure at Public Parks, Public Beaches, and Schools (AB 1082 and AB 1083).** The budget includes \$546,000 (Public Utilities Commission Utilities Reimbursement Account) for three one-year limited-term positions to implement the requirements of AB 1082 (Burke), Chapter 637, Statutes of 2017, and AB 1083 (Burke), Chapter 638, Statutes of 2017. These bills created an expedited review process for applications to install charging stations at certain public properties that requires additional work at the PUC.
- **Loan Repayment Extension.** The budget includes a new budget item to reflect the extension of a loan repayment from the Regional Railroad Accident Preparedness Immediate Response Fund to the California High-Cost Fund-B Administrative Committee Fund. The Governor’s budget reflected a loan extension for two loans between these funds, but the proposed budget bill language only reflected one loan. This is a technical correction to address this oversight.
- **Net Energy Metering.** The budget includes trailer bill language to allow military installations with eligible distributed generation to utilize the Net-Energy Metering (NEM) 2.0 tariff, essentially allowing these electric customers to be treated similarly to other customers who have on-site eligible distributed generation under the NEM 2.0 tariff.
- **California Public Utilities Commission Governance, Accountability, Training, and Transportation Oversight Act of 2017 (SB 19), and Strengthening the Transportation Enforcement Branch.** The budget includes the elimination of ongoing appropriations in the Transportation Rate Fund (TRF) and 11 related positions, as well as the transfer of \$750,000 from the TRF to the Household Movers Fund (HMF), in the Professions and Vocations Fund to fund new responsibilities at the Department of Consumer Affairs (DCA). These changes are intended to enact the requirements of SB 19 (Hill), Chapter 421, Statutes of 2017. The budget also includes trailer bill language making several technical changes required to implement the provisions of SB 19. Additionally, the budget includes \$2.4 million from the PUC Transportation Rate Account (PUCTRA) for:
 - Five new permanent positions (\$975,000) to enhance enforcement and leadership of the branch.
 - \$1.4 million that will be spread across 40 existing staff that previously worked on both transportation and household goods movers-related issues.
- **Electric Transmission Rates Advocacy.** The budget includes \$1.5 million (Public Utilities Commission Utilities Reimbursement Account) for ongoing consulting costs (\$600,000) and for five additional positions to advocate for California ratepayers at transmission rate proceedings

before the Federal Energy Regulatory Commission (FERC) and the California Independent System Operator (CAISO).

- **Maintain Energy Division Compliance with Audit and Statutory Requirements for Balancing Account Reviews.** The budget includes \$310,000 from the Public Utilities Commission Utilities Reimbursement Account (PUCURA), to make permanent, two limited-term Public Utilities Regulatory Analyst (PURA) IV positions set to expire June 30, 2018, to continue to perform balancing account reviews.
- **Natural Gas Core Transport Agency Consumer Protection.** The budget includes \$103,000 from the PUCURA for one permanent Public Utilities Regulatory Analyst to implement newly defined and magnified registration and consumer protection duties, set forth in a recently issued Commission decision regarding gas Core Transport Agents (CTAs).
- **Maximize Federal Litigation Outcomes.** The budget includes \$389,000 per year for two years from the PUCURA for two Public Utilities Counsel III to defend or further in federal court litigation, the PUC's implementation of federal and state legislation, policies, and rules; safety, consumer protection, and environmental enforcement actions; and ratepayer and state economic interests.
- **Gas Safety, Policy, Reliability, and Market Monitoring.** The budget includes \$194,000 from the PUCURA for one permanent Public Utilities Counsel III to support additional workload around natural gas issues.
- **California LifeLine Program.** The budget includes \$396.9 million in Local Assistance and \$31,314,000 in State Operations funding in 2018-19, all from the Universal Telephone Service Trust Administrative Committee Fund, for the California LifeLine Program. This includes a reduction of \$39 million (\$1.6 million in State Operations and \$37.7 million in Local Assistance) from initial requests to reflect lower projected new enrollment and renewal rates in the program.
- **California LifeLine Monitoring and Compliance.** The budget includes a permanent increase of \$619,000 from the Universal Telephone Service Trust Administrative Committee Fund for additional positions to keep pace with California LifeLine program growth and to address several administrative backlogs. Currently, despite the rapid growth in program participation by customers and service providers and expanded program activities, the total number of staff managing the program has remained fixed at seven personnel years since 2012-13.
- **Reduce Carbon Emissions.** The budget includes \$359,000 per year in ongoing funding from the Public Utilities Commission Utilities Reimbursement Account for two permanent positions and \$1 million per year for four years for consulting contract costs to implement the requirements of SB 350 (de León), Chapter 547, Statutes of 2015, AB 578 (Blakeslee), Chapter 627, Statutes of 2008, and AB 327 (Perea), Chapter 611, Statutes of 2013.

8660 CPUC OFFICE OF RATEPAYER ADVOCATE (ORA)

The budget includes a series of actions designed to implement recent legislation and to improve staffing and the office's ability to effectively advocate on behalf of ratepayers for safe and cost-effective service. The 2018-19 budget provides \$37 million for ORA. This includes funding for:

- **Electric Safety Analysis.** The budget includes \$334,000 and two positions to address utility safety-related workload arising from expansion of existing and new PUC proceedings. The increased staff in electric safety will help inform safety model assessment proceeding and assess the accuracy of the utilities' risk management.
- **Analysis of Community Choice Aggregation and Other Departing Load Programs.** The budget includes \$167,000 for one permanent Public Utilities Regulatory Analyst (PURA) V position to perform expanding workload associated with the recent increase in departing load programs, specifically the Community Choice Aggregation (CCA) program. The CCA program enables cities and counties to pool resources to develop or purchase power—with an emphasis on renewable energy. Customers are beginning to depart investor owned utilities (IOUs) for CCAs. SB 350 (de León), Chapter 547, Statutes of 2015, mandates new requirements that support the state's goals to increase renewable resources, reduce GHG emissions, and enhance system reliability in the most cost effective manner apply to all load serving entities (LSEs). Both IOUs and CCAs are defined as LSEs. The CCA-related requirements of SB 350 have a direct and significant impact on all residential customers' rates and ultimately their monthly bills. As CCAs grow, workload associated with reviewing CCAs' compliance with SB 350 requirements increases. Participation by various cities and counties throughout the state is estimated to grow significantly.
- **Electric Resource Modeling.** The budget includes two permanent positions and \$307,000 from the Public Utilities Commission Office of Ratepayer Advocates Account, to perform work associated with new complex computer simulation and modeling efforts required by the PUC's implementation of the integrated resource planning mandates contained in SB 350 (de León), Chapter 547, Statutes of 2015.
- **Geographical Information Systems Analysis.** The budget includes one permanent position and \$142,000 from the Public Utilities Commission Office of Ratepayer Advocate Account (PUCORA) to perform geographical spatial analysis work associated with evaluating investor-owned utility (IOU) applications and programs across industry areas, and measure program outcomes that impact disadvantaged communities and low-income households.
- **Trailer Bill Language: Public Advocate's Office.** The budget included language to update and rename the Office as the "Public Advocate's Office" so that its name more accurately conveys its public interest mission.

The budget provides \$14 billion from a variety of special funds, federal funds, and bond funds to support roughly 19,000 positions.

Proposals adopted and incorporated in the budget include:

- **Road Repair and Accountability Act of 2017.** The budget includes \$2.8 billion in new SB 1 revenues for a range of programs, including \$1.2 billion for highway maintenance and repairs, with \$53.6 million going towards 400 new maintenance positions, \$400 million for repairing bridges and culverts, \$330 million for the Transit and Intercity Rail Capital Program, \$308 million for Trade Corridor Enhancements, \$250 million for Commuter Corridor improvements, \$200 million in matching funds for the Local Partnership program, \$100 million for bicycle and pedestrian projects in the Active Transportation Program, \$25 million for increased freeway service patrols, and \$25 million for local planning grants.
- **Capital Outlay Support.** The budget provides an additional \$171 million federal and state funds and 740 new positions to provide project engineering and design support necessary to deliver transportation infrastructure projects, including environmental review and mitigation, right-of-way acquisition, construction management, and oversight of external consultant services.
- **Continuation of Proposition 1B Administrative Support.** The budget includes 2018-19 funding for the continuation of 31 positions totaling \$6,514,000 and 2019-20 funding for the continuation of 30 positions totaling \$5.9 million the 2018-19 requests include \$500,000 in operating expenses for a consultant contract administered by the Division of Budgets. The total funding provided in both fiscal years includes \$2.2 million in operating expenses for a project and program audit contract administered by the Department of Finance. This reduces the current 2017-18 Proposition 1B staffing level of 36 Positions by five positions in 2018-19, and by six positions in 2019-20.
- **Facilities Cost Adjustment.** The budget includes a one-time augmentation of \$2.1 million in 2018-19, a one-time augmentation of \$4.4 million in 2019-20, and a permanent ongoing augmentation of \$6.7 million in 2020-21 in State Highway Account funds to address the increased charges from the Department of General Services (DGS) for the maintenance and operation of headquarters and district office buildings. The cost of DGS' maintenance and operation of Caltrans-owned office buildings is projected to increase from \$35.2 million in 2017-18 to \$41.9 million in 2020-21.
- **California High-Speed Rail Reimbursement Authority.** The budget includes the extension of 14 existing limited-term positions for two additional years, beginning July 1, 2019 through June 30, 2021, and \$2.8 million annually (\$1.7 million in personal service (PS), \$129,000 in operating expense (OE), and an additional \$1 million for litigation costs) in the State Highway Account Reimbursement authority for services rendered on behalf of the California High-Speed Rail Authority. These resources will provide ongoing legal services to the California High-Speed Rail Authority in real property acquisition and management for the Central Valley Madera to Shafter segment.
- **Federal Highway Administration Audit Compliance.** The budget includes a permanent increase of seven positions and \$835,000 (\$771,000 in personal services and \$64,000 in operating expenses) in State Highway Account funds to address workload increases resulting from the Federal Highway Administration's (FHWA) clarification of requirements with respect to the State's procurement, management and administration of Architectural and Engineering (A&E) contracts.

- **Safety Inspections of Highway Tunnels.** The Governor's budget includes a permanent increase of \$852,000 and four positions and one-time funding of \$30,000 for tunnel management software for federally mandated inspections. The costs for the 53 state-owned tunnels will be fully reimbursed by the FHWA and the inspection costs for the 31 local-agency tunnels will be 88.53 percent FHWA reimbursed and the remainder will be funded with local federal subvention funds.
- **Strategic Highway Safety Plan.** The Governor's budget includes a \$3 million increase (\$2.7 million in Federal Funds and \$300,000 in SHA matching funds) to develop the Strategic Highway Safety Plan required and mandated by the Fixing America's Surface Transportation Act. Of the total request, \$1.5 million (\$1.35 million in Federal Funding and \$150,000 in state matching funds) is ongoing and \$1.5 million (\$1.35 million in Federal Funding and \$150,000 in state matching funds) is one-time.
- **Personal Services Adjustment.** The budget includes a permanent increase of \$58 million from the State Highway Account to correctly align resources to fund all currently authorized positions. The proposed augmentation would fully fund about 340 positions that Caltrans otherwise would have to hold vacant. Caltrans plans to allocate the augmentation across its programs based on their historical compensation expenditures and position history. Most of the increase would go to the Highway Maintenance Program (\$20.5 million) and administration (\$16.1 million).
- **Privacy and Enterprise Security Enhancements.** The budget includes four positions and a one-time increase of \$10.4 million in State Highway Account (SHA) funds (\$699,000 for consulting services and \$9.2 million for software and hardware purchases) in 2018-19 and an ongoing increase of \$2.1 million SHA (for the four positions, \$60,000 for consulting services, and \$1.6 million for software and hardware purchases) to improve the Information Technology Cybersecurity Program, address Payment Card Industry compliance gaps and to develop an Enterprise Privacy Office.
- **Tort Fund Augmentation.** The budget includes a permanent increase of \$7.0 million SHA funds for Caltrans' tort litigation costs and settlement awards. Additionally, the budget includes budget bill language allowing the Department of Finance the ability to increase funding by up to an additional \$20 million following notification to the Legislature.
- **Vehicle Insurance Increase.** The budget includes a two-year increase of \$4.9 million in SHA funds for fleet insurance costs. For the last three fiscal years, Caltrans has lacked adequate funding to cover the cost of its annual insurance premium. In the 2018 Budget Act, Caltrans received a one-time augmentation of \$5.5 million SHA to partially cover the cost of the deficiency. In past years, the deficiency was paid for by Caltrans redirecting funding from other activities. This increase covers the shortfall for two years and Caltrans no longer need to redirect funding from other activities.
- **IT Infrastructure Refresh.** The budget includes a one-time increase of \$2 million in State Highway Account funds to develop an Information Technology Applications Roadmap. Additionally, the budget includes budget bill language authorizing up to \$12 million in one-time funds to continue replacement of outdated IT infrastructure, contingent upon approval of the Roadmap by the California State Transportation Agency, the California Department of

Technology, and the Department of Finance, as well as notification of the Joint Legislative Budget Committee (JLBC).

- **Road Usage Charge (RUC) Pilot Program Continuation.** The budget includes \$3.2 million (\$1.4 million State Highway Account and \$1.8 million federal funds) for a two-year extension of five positions and \$2.5 million for a demonstration project of a pay-at-the-pump charging station alternative. The Administration released an Executive Order to increase zero emission vehicles to five million by 2030 and funding is currently being proposed to support this effort. Achieving these goals would result in less gasoline and diesel fuel purchases, which will result in a reduction in the tax revenues that are currently used to maintain the state's roadways. This proposal would continue the RUC pilot to explore the feasibility of alternative revenue generation options.
- **Cyber Security.** The budget provides \$10.4 million State Highway Account and four positions for Caltrans to develop an enterprise privacy office to address its ongoing cyber security needs. While \$9.2 million will be for hardware and software, \$700,000 will be for consulting and licenses and \$500,000 will be for four ongoing positions to work with vendors, develop training, policies, and procedures, and manage the new program.
- **Active Transportation Program.** The budget includes a budget item to extend the allocation and liquidation periods for \$10 million in Greenhouse Gas Reduction Fund resources provided to the Active Transportation Program as part of the 2016 budget.
- **SB 1 Local Expenditures.** The budget includes trailer bill language to allow local agencies to borrow from other internal city or county revenue streams and reimburse themselves with future year SB 1 apportionments.
- **Indirect Cost Rate Proposal (ICRP).** The budget includes trailer bill language capping the administrative indirect costs that Caltrans may charge to self-help counties at ten percent for three years. Instead Caltrans will only charge Self-Help counties for direct costs or functional overhead.
- **Emergency Contracting.** The budget includes trailer bill language streamlining the execution of emergency no-bid public works contracts, such as those for the reconstruction of roads after natural disasters.

2665 HIGH-SPEED RAIL AUTHORITY

The High-Speed Rail Authority (HSRA) is responsible for the development and construction of the state's high-speed rail system. The HSRA's budget includes expenditures for support: environmental work, design, planning, right-of-way acquisition, and construction, and local assistance of \$1.2 billion. This includes:

- The budget includes a reappropriation of \$1.6 billion through June 30, 2022 and extends the liquidation period through June 30, 2024. This is comprised of:

- \$528.4 million [\$380.8 million fiscal year 2010 federal funds and \$147.6 million High-Speed Passenger Train Bond Fund (Proposition 1A)] for the Initial Construction Segment (ICS) of the high-speed train.
- \$1.0 billion Proposition 1A for the early improvements within the Bay Area and greater Los Angeles regions, also known as the “bookends.”

2670 BOARD OF PILOT COMMISSIONERS FOR THE BAYS OF SAN FRANCISCO, SAN PABLO, AND SUISUN

The Board of Pilot Commissioners for the Bays of San Francisco, San Pablo, and Suisun is the oversight body that licenses and regulates maritime pilots who navigate certain large vessels entering or leaving those bays, Monterey Bay, and on tributaries to Sacramento and Stockton. The budget provides roughly \$2.5 million in special funds to support the Board’s operations. This includes:

- **Provisional Language for Pilot Trainee Selection Examination Costs.** The budget includes provisional language to allow the augmentation of the Board's budget authority by up to \$400,000 to fund additional costs associated with administering a Pilot Trainee Training Program selection examination should the need arise.

2720 CALIFORNIA HIGHWAY PATROL (CHP)

CHP is responsible for ensuring the safe and efficient flow of traffic on state roads and county roads in unincorporated areas. The budget includes total expenditures of \$2.6 billion from the Motor Vehicle Account (MVA) and other special funds. Proposals approved in the budget include:

- **Radio Console Replacement Project II.** The budget includes four limited-term positions and multi-year funding from the Motor Vehicle Account (MVA) to complete the replacement of antiquated and incompatible dispatch consoles in all communications centers statewide. This includes one-time augmentations of \$3.9 million in 2018-19, \$4.5 million in 2019-20, \$4.9 million in 2020-21, and \$509,000 in 2021-22.
- **Vehicle Mounted Radar Units.** The budget includes a one-time augmentation of \$600,000 per year for 2018-19 and 2019-20 from the MVA to purchase vehicle-mounted radar units. This funding will be used to continue the replacement of radar on marked enforcement vehicles and begin the scheduled replacement of aging radar equipment to ensure maximum effectiveness of radar as a speed enforcement tool.
- **Conversion of Contract Positions to Permanent Positions.** The budget includes three permanent positions to convert three professional service contract positions currently tasked with supporting the expanded Computer Aided Dispatch (CAD) system to full-time state employees, and \$133,000 decrease in reimbursement authority. This proposal will result in annual cost savings of approximately \$133,000 and will provide continued user and system support to the CAD system.
- **Vehicle Insurance Premium Augmentation.** The budget includes \$7.5 million in 2018-19 and 2019-20 to fund the increase in the vehicle insurance premium assessment paid to DGS, Office of

Risk and Insurance Management. For 2018-19, DGS has communicated that the vehicle insurance premium assessment for CHP is \$20.9 million based on expected large settlement claims. It is expected that these claims will also affect premium rates for 2019-20 as the yearly assessments are calculated based on five-year average of claims paid. The need for a permanent increase in baseline funding for vehicle insurance premium will be reassessed in 2020-21.

- **Vehicle Fleet Replacement.** The budget includes an ongoing augmentation of \$4.5 million MVA for the replacement of its ground fleet, and provisional language to allow a two-year period for encumbrance or expenditure of up to \$20 million for the purchase of replacement vehicles. The budget also deletes existing budget language for advance authority for the CHP to incur automotive equipment purchase obligations in an amount not to exceed \$5.0 million during the current fiscal year, for delivery in the following fiscal year, payable from the MVA.
- **Build-to-Suit Lease Authority.** The budget includes trailer bill language to authorize CHP to pursue a build-to-suit lease procurement process for the replacement of the Tracy area office. Authority for this project was first provided in 2008, but has since expired.
- **Wireless In-Car Camera System with Body-Worn Camera Expandability Option.** The budget includes 12 positions phased in over three years, \$52.53 million from the MVA over three years to implement a wireless in-car camera system with the option to purchase Integrated Body-Worn Cameras (BWC) in the future, and a \$14.381 million baseline augmentation from the MVA to maintain the system.
- **Capital Outlay Proposals and Lease-Revenue Bond Proposals.** The Governor's budget included MVA funding as well as significant lease-revenue bond authority in 2018-19 for several capital outlay projects. The final budget rejects the proposed use of lease-revenue bonds and requires CHP to pursue a pay-go approach to the desired projects. The budget includes \$178 million in 2018 to fund the currently-planned projects.

2740 DEPARTMENT OF MOTOR VEHICLES (DMV)

The DMV promotes driver safety by licensing drivers and protects consumers by issuing vehicle titles and regulating vehicle sales. The budget provides total funding for the DMV of \$1.2 billion in special funds. The budget includes:

- **Five-Year Infrastructure Plan – Arleta, Lincoln Park, and Mission Hills Investigations Consolidation.** The budget includes \$50,000 one-time from the MVA for Department of General Services planning fees; \$457,000 MVA in 2019-20; and \$692,000 MVA ongoing starting in 2020-21 to relocate the Mission Hills Investigations Office and consolidate it with the Lincoln Park and Arleta Investigation offices in a new leased facility.

The ongoing cost of the three permanent positions would be \$675,000 annually.
- **Front End Sustainability Project.** The budget includes \$15 million in MVA funding in 2018-19 to support the implementation of the Front End Applications Sustainability (FES) project. The annual amount over each of the next four years will fluctuate and total \$89 million, which includes funding for three permanent positions beginning in 2018-19 and funding for seven limited-term positions from 2018-19 through 2022-23.
- **IT Infrastructure Refresh.** The budget includes a one-time operating expense increase of \$3.1 million MVA funding for the replacement of outdated critical information technology (IT) infrastructure equipment that has reached its end of life (EOL) and has been identified as a priority to ensure continuity of business operations.

4120 EMERGENCY MEDICAL SERVICES AUTHORITY (EMSA)

- **Increased Information Technology Security Resources.** The budget includes one position and General Fund expenditure authority of \$356,000 in 2018-19 and \$189,000 annually thereafter to allow EMSA to provide adequate staffing levels to strengthen the department’s information technology (IT) infrastructure and compliance with state IT policy and regulatory requirements.

4140 OFFICE OF STATEWIDE HEALTH PLANNING AND DEVELOPMENT (OSHPD)

- **Health Care Cost Transparency Database.** The budget includes General Fund expenditure authority of \$60 million for OSHPD to establish and administer the Health Care Cost Transparency Database. The database will collect data from health care service plans, health insurers and other payers regarding payments and pricing for health care services. In the first phase of implementation, OSHPD will convene a review committee of health care stakeholders and experts to provide guidance for developing the database.
- **Prescription Drug Cost Transparency Implementation (SB 17).** The budget includes three positions and expenditure authority from the California Health Data and Planning Fund of \$500,000 in 2018-19, \$850,000 in 2019-20, and \$800,000 annually thereafter. Beginning in 2019-20, the budget includes an additional 2.5 positions for a total of 5.5 permanent positions. These positions and resources will allow OSHPD to implement prescription drug price transparency initiatives required by SB 17 (Hernandez), Chapter 603, Statutes of 2017, including notices to health care purchasers, quarterly reporting, and other public reporting of information regarding the cost of prescription drugs.
- **Mental Health Loan Assumption Program Administrative Resources.** The budget includes expenditure authority from the Mental Health Services Fund of \$215,000 in 2018-19 and 2019-20 to support administrative activities to close out all grants awarded through the Mental Health Loan Assumption Program and ensure compliance with program requirements.
- **Workforce Education and Training (WET) Program.** The budget includes expenditure authority from the Mental Health Services Fund State Administration Account of \$10 million in 2018-19 to allow existing WET programs to continue while OSHPD and stakeholders work together on options for funding and implementing a new five-year plan for the WET program.
- **Primary Care Mental Health Fellowship.** The budget includes expenditure authority from the Mental Health Services Fund State Administration Account of \$1 million in 2018-19 for OSHPD to provide scholarships for the University of California (UC) Primary Care Mental Health Fellowship program. The program will allow primary care physicians in medical shortage areas of California to receive psychiatric training at UC.

4150 DEPARTMENT OF MANAGED HEALTH CARE (DMHC)

- **Federal Mental Health Parity Compliance Review Contract.** The budget includes expenditure authority from the Managed Care Fund of \$529,000 annually to allow DMHC to continue to review health care service plan filings for compliance with the mental health parity requirements of the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008.
- **Prescription Drug Cost Transparency (SB 17).** The budget includes one position and expenditure authority from the Managed Care Fund of \$307,000 in 2018-19 and \$281,000 annually thereafter to allow DMHC to compile health plan information on prescription drug costs pursuant to SB 17 (Hernandez), Chapter 603, Statutes of 2017.

- **Consumer Outreach and Assistance Program.** The Legislature approved expenditure authority from the Managed Care Fund of \$1.9 million annually to allow DMHC to continue funding for the Consumer Outreach and Assistance Program, which contracts with community-based organizations to assist consumers in navigating private and public health care coverage.

4260 DEPARTMENT OF HEALTH CARE SERVICES (DHCS)

- **Medi-Cal Local Assistance Funding.** The budget includes \$104.4 billion (\$23 billion General Fund, \$67.3 billion federal funds, and \$14.1 billion special funds and reimbursements) for the delivery of health care services to low-income individuals and families in the Medi-Cal program. These funds are distributed as follows:
 - Medi-Cal Benefits: \$99.5 billion (\$21.6 billion General Fund, \$63.8 billion federal funds, and \$14.1 billion special funds and reimbursements) for the provision of health care benefits to Medi-Cal beneficiaries.
 - County Administration and Eligibility: \$4.6 billion (\$1.2 billion General Fund, \$3.3 billion federal funds, and \$5.4 million special funds and reimbursements) for eligibility determinations and other administrative activities performed by counties. This allocation includes \$54.8 million (\$18.5 General Fund and \$36.3 million federal funds) in 2018-19 for a cost-of-doing-business adjustment for county eligibility workload.
 - Fiscal Intermediary: \$328.3 million (\$112.8 million General Fund and \$215.6 million federal funds) for claims processing and related activities performed by the Medi-Cal fiscal intermediary.
- **Family Health Programs Local Assistance Funding.** The budget includes \$280.9 million (\$231.1 million General Fund, \$5.1 million federal funds, and \$44.7 million special funds and reimbursements) for state-only health care programs, as follows:
 - California Children’s Services (CCS) Program: \$92.7 million (\$87.3 million General Fund and \$5.5 million reimbursements). Counties will contribute an additional \$83.6 million for state-only services in the CCS Program.
 - Child Health and Disability Prevention Program: \$3,000 General Fund.
 - Genetically Handicapped Persons Program: \$155 million (\$138.2 million General Fund and \$16.7 million special funds and reimbursements).
 - Every Woman Counts Program: \$33.2 million (\$5.6 million General Fund, \$5.1 million federal funds, \$22.5 million special funds).
- **Proposition 56 Medi-Cal Provider Reimbursement Augmentations.** The Legislature approved budget bill language and \$2.1 billion (\$821.3 million Proposition 56 tobacco tax revenue and \$1.3 billion federal funds) for supplemental payments and rate increases for the provision of Medi-Cal services. The maximum allocations of Proposition 56 tobacco tax funds for reimbursement rate increases and related budget bill language changes are as follows:
 - \$500 million for supplemental payments for physician services.
 - \$210 million for supplemental payments for dental services.
 - \$49 million for supplemental payments for women’s health services.

- \$27.6 million for increased reimbursement rates for home health providers.
 - \$12.3 million for supplemental payments to eliminate the rate freeze for intermediate care facilities-developmental disabilities (ICF-DDs). Budget bill language also expands existing supplemental payments to facilities providing continuous skilled nursing care.
 - \$7 million for increased reimbursement rates for pediatric day health care facilities.
 - \$6 million for one-time funding for qualifying Program of All-Inclusive Care for the Elderly organizations.
 - \$4 million for one-time supplemental payments for free-standing pediatric sub-acute facilities.
 - \$3.4 million for supplemental payments for AIDS Waiver service providers.
 - \$2 million for one-time funding for qualifying Community-Based Adult Services programs.
 - Budget bill language authorizes DHCS to make payments while federal approval is pending and provides that any payment amounts for which federal approval is not obtained be recouped from the paid providers.
- **Proposition 56 Medi-Cal Provider Loan Repayments.** The Legislature approved budget bill language, trailer bill language, and expenditure authority of Proposition 56 tobacco tax revenue of \$220 million for loan repayments to Medi-Cal providers. Specifically, the Proposition 56 Medi-Cal Physicians and Dentists Loan Repayment program will allocate loan assistance payments to qualifying, recent graduate physicians and dentists who serve Medi-Cal beneficiaries as follows:
 - \$190 million for loan assistance payments to recent graduate physicians.
 - \$30 million for loan assistance payments to recent graduate dentists.
- **Children’s Health Insurance Program (CHIP) Reauthorization.** The budget includes a combined reduction of General Fund costs of \$898.1 million in 2017-18 and 2018-19 to reflect additional federal funds received as a result of Congressional reauthorization of the Children’s Health Insurance Program at the enhanced 88 percent federal matching rate until September 2019, at 76.5 percent until September 2020, and at the traditional 65 percent thereafter.
- **Specialty Mental Health Services Federal Audit Settlement.** The budget includes General Fund expenditure authority of \$180.7 million in 2018-19 for repayment of disallowed costs for Medi-Cal specialty mental health services. A recent audit by the U.S. Department of Health and Human Services, Office of Inspector General, will result in the disallowance of federal claims for specialty mental health services provided by county mental health plans. These funds will initially be paid by the state’s General Fund with repayments from counties occurring over the next four years to prevent significant funds from being diverted from the mental health delivery system in a single year.
- **Children’s Mental Health Mandate Repayment.** The budget includes repayment of approximately \$254 million for repealed state mandates on counties to provide special education and related mental health services for seriously emotionally disturbed children pursuant to AB 3632 (Brown), Chapter 1747, Statutes of 1984.
- **Medi-Cal Current Year Deficiency.** The Legislature approved the Administration’s request to augment the 2017 Budget Act General Fund appropriation for Medi-Cal by \$830.5 million. These funds address a deficiency in the 2017-18 fiscal year caused by lower than anticipated pharmacy

rebates, lower revenue from managed care organization taxes, and increased General Fund costs due to federal claims deferrals. These costs are net of partially offsetting General Fund savings from additional hospital quality assurance fee revenue, additional federal funds from the reauthorization of the Children's Health Insurance Program, and reduced costs for managed care capitation payments.

- **Reject Prohibition of 340B Reimbursement in Medi-Cal.** The Legislature rejected the Administration's trailer bill language proposal to prohibit the use of federal 340B Drug Pricing Program reimbursements within the Medi-Cal program.
- **Homeless Mentally Ill Program.** The budget includes General Fund expenditure authority of \$50 million in 2018-19 to provide counties with targeted funding for multi-disciplinary teams to support intensive outreach, treatment, and related services for homeless persons with mental illness. These interventions are intended to result in earlier identification of mental health needs, prevention of criminal justice involvement, and improved coordination of care for this population at the local level.
- **Federal Repayment for School-Based Medi-Cal Administrative Activities Programs.** The budget includes General Fund costs of \$8.9 million in 2017-18 and \$136.4 million in 2018-19 for repayments to the federal government resulting from overpayments to local education agencies for administrative activities related to Medi-Cal. To the extent a local education agency has an outstanding balance owed to the federal government, the budget also withholds one-time discretionary funding from the agency's Proposition 98 appropriation in the 2018-19 fiscal year to repay the General Fund for the outstanding balance owed to the federal government.
- **Lawsuits and Claims Payment Notifications.** The Legislature approved budget bill language eliminating obsolete provisions regarding legislative notification for payment of attorney fees. The information subject to notification is currently provided semi-annually in the Medi-Cal Local Assistance Estimate.
- **Waiver Personal Care Services Provider Parity.** The Legislature approved trailer bill language and General Fund expenditure authority of \$3 million annually to establish the county public authorities and nonprofit consortia as the employers of record for providers of waiver personal care services (WPCS) and adopted related changes to establish parity between WPCS and In-Home Supportive Services providers.
- **Health Information Exchanges Funding.** The Legislature approved budget bill language and expenditure authority of \$50 million (\$5 million General Fund and \$45 million federal funds) to assist Health Information Exchanges (HIEs) with onboarding new providers and connecting them to the HIE so that they can successfully use its services.
- **California Health Interview Survey – Children's Data.** The Legislature approved budget bill language and General Fund expenditure authority of \$750,000 to implement a pilot expansion for the California Health Interview Survey to strengthen data collection efforts regarding the health and well-being of California's children and youth.

PUBLIC EMPLOYMENT AND RETIREMENT

7320 PUBLIC EMPLOYMENT RELATIONS BOARD

- **Base Augmentation.** The budget provides \$2.4 million General Fund to address a caseload backlog, as follows: \$1.4 million to fund six new position, and the executive director position, and \$1 million pending the completion of a mission based review by the Department of Finance.

7501 CALIFORNIA DEPARTMENT OF HUMAN RESOURCES (CalHR)

- **Preventing Sexual Harassment and Discrimination in the Workplace.** The budget includes three permanent positions and \$1.5 million (\$720,000 General Fund, \$132,000 Reimbursement, \$47,000 Special Funds, and \$546,000 Central Service Cost Recovery Fund) in fiscal year 2018-19 and ongoing to establish a centralized unit within the Office of Civil Rights, specifically responsible for the statewide oversight of monitoring and addressing discrimination and harassment complaints received by state entities. The unit will be responsible for analyzing complaint data, assisting state entities with problems, and addressing negative trends. The unit will also provide detailed reporting on all activities, allowing CalHR to be proactive in identifying compliance issues within departments.
- **State Retiree Census Data.** Trailer bill language requires the California Public Employees' Retirement System to assist CalHR, upon request, by providing retiree names and addresses for notifying retirees of eligibility for enrollment into a dental plan, vision plan, group legal insurance plan, or life insurance plan offered by the department.
- **Public Employment Training.** Trailer bill language specifies that the department may provide training programs to any public employee. The statute also defines "public employee or officer" and provides that the department may give priority to a public employee or officer.
- **Statewide Human Resources Workload.** The budget includes eight positions and \$1.8 million (\$213,000 General Fund and the remainder reimbursement and special fund) in 2018-19, and \$1.9 million (\$111,000 General Fund and the remainder reimbursement and special funds) in 2019-20 and ongoing to address workload in the areas of training, retention, and recruitment.

This effort is in collaboration with the Department of Technology and the State Controller's Office.
- **Retiree Healthcare.** Trailer bill language authorizes CalHR to establish the total employee contribution to prefund retiree health care as a percentage of pensionable compensation for (1) a state employee who is not related to a bargaining unit or who is excepted from the definition of state employee, or (2) an officer or employee of the executive branch of state government who is not a member of the civil service, with the goal of reaching a 50 percent cost sharing of actuarially

determined normal costs for both employer and employees by July 1, 2020. In addition, trailer bill language specifies that an employee or officer must make contributions to prefund retiree health care based on specified percentages and that the state must make matching contributions.

7503 STATE PERSONNEL BOARD

- **Administrative Services Workload.** The budget includes five positions and \$655,000 (\$223,000 General Fund, \$263,000 Reimbursements, and \$169,000 Central Service Cost Recovery) in 2018-19 and ongoing to provide internal administrative resources to assist with equal employment opportunity duties, business services support, and to manage SPB proceedings.

7900 CALIFORNIA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (CalPERS)

- **CalPERS Operational Budget.** The budget includes an increase of \$6.9 million salaries and benefits, which is partially offset by a continued reduction in external investment management fees.
- **Supplemental Pension Payment.** Trailer bill language allows the State Controller, upon order of the Director of Finance, to transfer the amount of Proposition 2 (Rainy Day Budget Stabilization Fund Act, 2014) debt repayment funds allocated to make a supplemental pension payment to CalPERS to pay the state's unfunded liability or repay the Pooled Money Investment Account (PMIA) for principal and interest costs for a cash loan made to supplement the state's retirement contributions for 2017-18.

7920 CALIFORNIA STATE TEACHERS' RETIREMENT SYSTEM (CalSTRS)

The Defined Benefit payment will be increased by \$4.2 million and the Supplemental Benefit Maintenance Account contribution will be increased by \$1.4 million.
- **Internal Investment Management.** The budget includes \$15.4 million and 58 permanent positions, to be deployed over a five years. These resources will enable CalSTRS to strategically respond to global economic conditions and increased complexity of assets under management at a lower cost through the use of internal management. These resources would be deployed pursuant to Teachers' Retirement Board actions as increased assets under management demand and as market opportunities and risks are presented.

9800 EMPLOYEE COMPENSATION

- **Augmentation for Employee Compensation.** The budget includes \$134 million to account for changes in employee compensation, including salaries, health premium rates and benefits, and retirement benefits, including negotiated memoranda of understanding with the California Correctional Peace Officers Association (Bargaining Unit 6), revised pay increases for Judges, and updated costs related to the salary survey estimates for the California Highway Patrol (Bargaining Unit 5).
- **Memoranda of Understanding.** SB 873 provides for legislative ratification of the memoranda of understanding (MOUs) for Bargaining Units 9 (Professional Engineers) and 10 (Professional Scientists). These agreements impact approximately 10,782 full-time equivalent employees in BU 9, and 3,304 full-time equivalent employees in BU 10. \$132.8 million is provided, of which \$6.2 million is General Fund, to implement the MOUs, and contains costs for increases for supervisors and managers to avoid salary compaction. SB 852 ratifies the MOU for BU 6 (Corrections), which impacts 27,349 full-time equivalent employees. \$114.6 million is provided, of which \$112.4 million is General Fund, to implement this MOU.

The budget also includes the following trailer bill language:

- **Civil Service.** SB 866 makes various changes to civil service hiring processes. Specifically, the bill specifies that the State Personnel Board has authority over appointments. The bill specifies that individuals who successfully pass an evaluation period, not only a probationary period, are considered permanent employees. It removes rules concerning certifying candidates for managerial positions, and the rule that individuals can only apply for a job if they are on an examination list for that specific job classification, even if they are on a list for a classification that is substantially similar. SB 866 also removes the requirements that state entities can only offer job examinations on a continuous basis if they experience difficulty maintaining a qualified candidate pool.

SB 866 allows a department to combine a Limited Examination and Appointment Program (LEAP) eligibility list for a job with a non-LEAP eligibility list. Additionally, the bill provides that job seekers with a disability can become employed through the LEAP process when they work at the job during a six-month evaluation period to demonstrate that they can perform the job duties, instead of the standard process where the individual takes an examination and has a probationary period to demonstrate that they qualify for the job.

- **In-Home Supportive Services (IHSS) Orientation.** SB 857 specifies that a request to meet and confer between an IHSS employee organization and the county, public authority, or nonprofit consortium in Los Angeles, Merced, and Orange counties shall reopen an existing MOU for the sole purpose of negotiating an agreement on access to provider orientation. SB 857 will sunset on July 1, 2021.
- **Reasonable Accommodations.** SB 846 requires the Department of General Services (DGS) to periodically review policies and procedures in the State Contracting Manual regarding reasonable accommodation purchases for state employees. The bill also requires DGS to post on its website a report on purchases of services, goods, information technology and telecommunication related to reasonable accommodations for state employees.

- **Kern County Hospital Authority.** SB 866 and SB 846 require an employee hired by the Kern County Hospital Authority to participate in the Kern County Employees' Retirement Association, except as modified in an applicable memorandum of understanding, or if the board determines that their participation could jeopardize the association's tax-qualified status under federal law.
- **Agency and Fair Share Fees.** SB 846 specifies that the Controller, a public employer, an employee organization, or any of their employees, as defined, shall not be liable for, and would have complete defense to, specified claims regarding agency or fair share fees from current or former public employees. The bill also specifies that employees shall not have standing to pursue claims if fees were permitted prior to June 27, 2018.
- **Public Employee Dues.** SB 866 clarifies that employees, including retired employees, of a public employer, may authorize deduction from their salary, wages, or retirement allowance for the payment of dues in an employee organization or bona fide association. SB 866 also specifies that the public employer must honor employee authorizations for such deductions; and, that the revocation of an authorization must be determined by the terms of the authorization. This bill requires all public employers to direct employee requests to cancel or change deductions to the employee organization.

SB 866 also specifies that applicants for public employment are also among those whom the public employer is strictly prohibited from deterring or discouraging from becoming or remaining members of an employee organization. The bill expressly applies the prohibited activities involving the authorization of dues or fee deductions to an employee organization.

- **Public Employee Orientation.** SB 866 requires that the date, time, and place of a new public employee orientation must not be disclosed in advance of the orientation to anyone other than the employees, the exclusive representative, or a vendor that is contracted to provide a service for purposes of the orientation.
